

M27 motorway closure

8pm on 24 December 2025 to
4am on 4 January 2026

Junction 9 (Whiteley) to Junction 11
(Fareham) in both directions

What is happening?

Major construction work to install a new four-lane underpass under the M27 in Hampshire between Junction 9 and Junction 11.

The signed A27 diversion route between Junction 9 and 11 is expected to be busy in both directions.

Better connections for everyone

The new underpass will connect Fareham with the Welborne Garden Village development, improving access to the M27 and supporting future growth in the area.

The scheme is being delivered by Hampshire County Council in partnership with National Highways, with funding from the Buckland Group (developer of Welborne Garden Village) and Homes England. The full scheme is due for completion in winter 2026.

Plan ahead and allow extra time
for your journey.

Consider using alternative routes
or public transport to avoid severe
delays on the A27 diversion route.
